

Cypress Garden

The **Cypress Garden** is located at the west end of the Fundació and directly connected with the temporary rooms. The garden, designed by JCN Forestier and integrated throughout the Montjuïc Park has direct entrance from the street. Its special location, independent of the route of the museum offers a wide range of possibilities. It's complementary with the Workshop Space.

					
NO	200	150	260	240	From 9:00 to 24:00
